IN PARTNERSHIP WITH

One best in class compliance system is no longer enough

Our experience has shown us that organisations have common data that is required across multiple systems. It causes duplication, delay and error. At Elogs, we've partnered with Prosure360 to elevate the visibility of your supply chain, combining two of the very best compliance systems. Your key metrics can be integrated, giving you unrivalled transparency and unparalleled control.

Introducing, Elogs in partnership with Prosure360.

How does Elogs help?

Elogs is a cloud-based CAFM solution and branded Service Desk. Used across 22,000+ properties, we're instructed by the world's largest managing agents, property owners and PLC's in the property and asset management sector.

Our Service Desk sets us apart from other CAFM solutions. The Elogs Service Desk Team act as an extension of your business: logging the jobs raised by FM's, dispatching to your service providers and tracking their progress from initial attendance to completion. Our Service Desk also monitors the integrity of data entered onto the system, proactively chasing Service Providers for regular updates. Elogs job status is 100% accurate, 24/7.

Elogs helps:

- With supplier performance monitoring, comparing against hard data targets and service driven KPIs.
- Manage reactive jobs and quote management, with levels of approval and strict monitoring to ensure nothing is missed.
- Manage your assets, which can then be shared with users and engineers.
- Planned Preventative Maintenance (PPM), giving clear visibility of scheduled maintenance across your portfolio.
- Give your occupiers 24/7 access to a professional helpdesk to support on any issues you might have on site.

Prosure360's pioneering partnership with Elogs.

Prosure360 is our cutting-edge solution to supply chain management. It gives ground-breaking supply chain visibility to manage suppliers and contractors across any industry; high standards and ethical best practices are at its core. Our in-house team of assessors will support you through the process of assessments e.g. Safety Schemes in Procurement (SSIP) and our own standard of Prosure360 Pre-Qualification; including, but not limited to, Business & Professional Standing; Equality, Diversity and People and Quality Management.

Prosure360 helps:

- Service Providers gain the verifications they need to demonstrate their adherence to key standards.
- Save time, money and reduces the administrative burden of managing your supply chain.
- Minimise the impact of vulnerabilities and disruptions.
- Service Providers to raise their profile and win more work.
- Reduce bureaucracy in the procurement process.

You set your standards

How do you know if Service Providers should be allocated to a specific job? What happens if one of their key insurances expires without your knowledge? And how do you check and safeguard your processes?

By integrating Elogs and Prosure360 you can **collate detailed information on Service Providers**. You can **set key standards** you want your supply chain to work to. Standards may include Health & Safety standard SSIP, our Pre-Qualification standard, insurance levels, levels of financial risk or even making sure your supply chain has read and agreed to your key documents.

You may want your on-site contractors to have SSIP in place, along with a variety of different insurances and you may mandate our Prosure360 Pre-Qualified Assessment. In Prosure360, you'll **see a traffic light report of your Service Providers** to show if they meet your standards or not, or even if they're about to expire.

With our unique integration, the same traffic lights are available within Elogs, so you can see whether a Service Provider is meeting your exact requirements. This additional safety shows you **real-time information on meeting standards** before allocating any work.

And for Service Providers, by joining Prosure360 and engaging, you can **upload key data** e.g. insurances and undertake the most suitable assessments. You're more likely to be spotted by new clients, and **more likely to win new work**.

I'm Interested, what next?

For Clients or buying organisations:

Contact Lisa Saunders, Head of Business Development by email lisa.saunders@prosure360.co.uk or call **07990 898689** to arrange a demo to see how you can benefit from Elogs and Prosure360's collaborative partnership.

For Service Providers:

Sign-up for free at **Prosure360**. Once you have an account, link it up to one or many of your Elogs CAFM accounts to start elevating your status.

Powering better buildings
